It's time for the down and dirty email with no fancy outlines or pictures.. hopefully more people will receive this and it won't go to spam. If you're one of those people who is receiving this for the first time in a while, please let us know.

But the focus of this email is our Morocco trip. It's May 26-June 10 (with shorter options available). Because we are taking advantage of a rare domestic flight to cut some of the hours of driving, we need to know right away how many people we might be so we can put a hold on flights. So please **contact us as soon as possible even if you are just considering this trip.**
