

## Happy Fourth of July!

I'm just back from an amazing exploration of Eastern Europe and I can't wait to share all the ideas for upcoming trips with you. I'm still organizing, but as a teaser, expect to see 2025 with a trip to Bulgaria and Romania as well as Croatia and Slovenia. I'm already working on a bike ride through Slovenia (and a little of Italy and a little of Croatia) for Sept. 2025, so bikers, mark your calendars! And of course if you need help with a custom trip to these locations, please let me know.

Also, I thought I'd bring up that July 1-7 is Clean Beaches Week! An entire week to celebrate our beautiful beaches and ensure they stay clean, safe, and lovely for generations to come. Clean Beaches Week combines the spirit of Earth Day with the fun of Independence Day and pumps up the fun for an entire week. July 4 is the most popular beach day of the entire year, but it also results in the most litter on our shores. Clean Beaches Week is a way to educate beach-goers on proper beach behavior before the big day. So if you're out at the beach July 4 or the weekend, please do your part to keep the beaches litter free. Here's a [link](#) to learn more about plastics and ocean pollution and organizations.

### CLEAN BEACHES WEEK ACTIVITIES

#### Go to the beach!

Each year 180 million Americans make 2 billion trips to the beach! Celebrate Clean Beaches Week by heading to a beach near you. Consider making a further positive impact by traveling via public transport or carpooling to reduce your carbon emissions

#### Clean-up a beach

If you go to the beach for fun, always make sure you "leave no trace," taking everything you brought to the beach back with you. You can even go a step further by participating in a beach clean-up to collect trash that others have left behind.

#### Watch and Learn

The Earth has over 372,000 miles of coastline, and each mile is special in its own way. Learn more about the beaches of the world by watching a documentary like Mission Blue, The Blue Planet, or A Plastic Ocean.

Speaking of beach clean-ups, did you know that Steppin' Out is including a clean up during our Belize trip on one of our ocean days? After a gorgeous kayaking trip, we will spend a little time clearing plastic out of the

ocean near the cute little beach town we will be staying. It's always great to be doing good while having fun!
