Kingdom of Bhutan Recap

What a remarkable time we had in Bhutan. Engaging in activities that you probably won't find anywhere else (such as the Naked Man Dance at the

Festival or meeting young orphan monks and providing them with lunch), were intertwined with gorgeous hikes, rafting, camping under the himalayan sky and so much more.

Everywhere we went we met extraordinary friendly people happy to share their culture and information about their country. From the farmer who taught us how to harvest rice to the country woman who taught us how to make noodles the traditional way, to the flag man who gave us each our special prayer flags and the many people who opened their homes to us. We even had a chance to meet with the newly established girls softball team to whom we donated gear.

There's nothing more rewarding than sharing these moments with others who appreciate and take them in wholeheartedly.
