

Come With Us to Cuba!

March 23-April 2

THE DATES HAVE CHANGED!
Now March 23-April 2.
CHECK OUT WHAT WE HAVE IN STORE...

comforts, but more dance, music and smiles. It's an inspiration for artists and musicians. A getaway for gangsters. A home of a revolution. There you can experience natural beauty, history, art by day, tap your toes to Caribbean rhythms by night, and wash it all down with a mojito.

Our trip is permitted under the US People to People license. In order for it to be legal, they are requiring us to do what we love to incorporate into our trips regardless. We will be meeting extraordinary people from interesting walks of life and hearing their stories. We visit an independent film maker, a world-famous photographer, a horse whisperer trainer, a tobacco farmer from Pinar Del Rio, an award winning acapella group, and artists and musicians just to name a few. We will spend time with different members of Cuba's Jewish community and share a Shabbat service and meal with them. To top it off, we will kayak, bike, ride horses, hike and explore the beautiful architecture as we immerse ourselves in the Cuban way of life.

Be sure to login to the website and check out the itinerary for more details about this fantastic trip!

REGISTRATION CLOSES JANUARY 15th

SEASON

Mama Anna and her life-changing cow

If you join us on our [Tanzania trip](#) this August, you will have the opportunity, like other Steppin Out members have had in year's past, to meet Mama Anna, founder of the Mulala Women Group. Mama Anna was a simple farmer. In 1992 she received a donation of a single cow from Heifer International for the purpose of producing milk to sell that would eventually help her earn some income and support her family. Mama Anna's milk production was a success and she managed to secure a good market for it.

At some point the demand of her milk became bigger than her capacity so she decided to join forces with other women in the village (in milk production) for the purpose of meeting the demand...and thereafter Agape Women Group was born! The women made organic foods to sell and their success continued to flourish and they were able to give their children the basic needs and now they have even built a school for their community so the kids don't have to walk miles to get an education.

And it all started with one cow that impacted so many lives.

What can you do? Maybe for that person who has everything or someone who wants to make a positive impact, give a gift of a cow, goat, chicken or other life-changer in honor or memory of someone at the holidays. Each gift comes with an honor card as a souvenir for helping provide families with access to school, food, and sustainable living. You can change lives like Mama Anna's.

If you can't join us in [Tanzania in August](#), join us for one of our group or custom trips that focuses on sustainable travel that supports the people and the places we visit while bringing everyone together. [Contact us.](#)

Always happy to promote a Steppin' Out member's new venture- especially when they are selling a good product that can be a great gift and will be great for the Zermatt trip when we are sledding down hill at night.
